

Your rental, secured

Here's a short and sweet description of flatfair for you to use on your website:

With flatfair No Deposit, tenants wave goodbye to expensive cash deposits and move-in quicker with significantly lower upfront move-in costs. When it comes to the end of tenancy, flatfair's technology makes it simple for tenants to pay for any damages or missing rent on their easy to use platform.

If there are any disputes about charges, these are handled quickly and fairly by government-backed independent adjudicators. There are also no sneaky or recurring charges if tenants decide to renew their tenancy and stay in their home.

What to include in your property descriptions:

This property is available with flatfair No Deposit, which means you have the option to secure the property with a much smaller one-off fee, split evenly between the household.

You can find out more here.

Link your tenants to

where they can find out more

And if you want to include more information about flatfair No Deposit on your designated tenant page, here are all of the key benefits to include:

- Move in quicker with significantly lower upfront move-in costs, split evenly between the household

- Fast and easy check-out; you simply pay for what you are responsible for, including damages or missing rent on flatfair's easy to use platform

- If you disagree with any charges, you can use flatfair's platform to negotiate charges

- And the option of government backed independent adjudication is available if these can't be settled upon

- No sneaky or recurring fees if you decide to renew your tenancy and stay in your home
